

Soffit Ventilators - Typical product code 38KSV603W

Product	Specifications	Quantity / Box
SV 603 Continuous Soffit 12mm thick board	White/Brown	10
SV 604E Continuous Soffit	Black/White/Brown	10
SV 606 Sloping Soffit	White/Brown	10
SV 608 (25mm airflow) Continuous Soffit	Black/White/Brown	10
SV 609 (25mm airflow) Continuous Soffit	White/Brown	10
SV 200 Twist and lock 70mm diameter	Black/White/Brown	50
SV 120 Spring Wing Ventilator	White/Brown	20

Suitable for new roofs or refurbishment, SV soffit vents may be used with all common soffit board materials. In conjunction with RV range, provide a continuous ventilation path to roof void. All continuous soffit ventilators are 2440mm long, except SV200.

Rafter Ventilators - Typical product code 38KRV601

RV 601 F Cross flow with fly screen	600mm Rafter Spacing	25
RV 451 F Cross flow with fly screen	450mm Rafter Spacing	50
RV 401 F Cross flow with fly screen	400mm Rafter Spacing	50
RV 200 Roll Continuous Ventilator	400 / 450 / 600	6m / 6.7m / 6m

Over Fascia Ventilators

FV 100	Black 300mm lengths	12m pack
FV 100	Black 900mm lengths	45m pack
FV 100	Black 1m lengths	45m pack
FV 250	Black 300mm lengths	12m pack
FV 250	Black 300mm lengths	45m pack

Loft Access

LA1 Push up trap - Product Code 38SLA1PF	Rigid Insulation	1
LA1 Push up trap - Product Code 38SLA1GF	Expanded Polystyrene	1
LA2 Hinge down trap - Product Code 38SLA2PF	Rigid Insulation	1
LA2 Hinge down trap - Product Code 38SLA2GF	Expanded Polystyrene	1
LA5 Push up trap - Product Code 38SLA5FR30	Half-hour fire rated	1
LA4 Aluminium extending ladder - Product Code 38SLA4	Use with LA2	1

Under Floor and Cavity Wall Ventilators

MV 250 Airbrick	Buff/Terracotta/Anthracite	20
MV 251 Periscope sleeve		20
MV 252 Maxi vent with periscope sleeve	Combined pack, Terracotta only	10
MV 253 Maxi vent extension kit		10
MV 254 Maxi vent vertical adaptor		10
MV 255 Maxi vent straight cavity sleeve		10
MV 650 Universal Weep Vent	Terracotta/Buff/Grey	50
Typical Product Code 38PMV250BU		

Slate & Tile Ventilators

All available in 5 standard colours.

Ventilation to roof voids where eaves or ridge installation is not possible, the G range of slate & tile vents offers a variety of profiles & colours matching most UK manufactured roof coverings. The G range of through roof slate and tile ventilation products available includes the G1, G3 and G5 tile ventilation with cowls plus the G51, G52, G53, G54 and G64 range of ridge ventilation units.

Loft Access Hatch

A comprehensive range of fitments for new build, refurbishment and fire rated ceilings. Available in push-up or hinge down versions with a choice of insulants including models to meet U-value of 0.35 W/m²K (Building Regulations Approved Document L1). Restricts moisture transference and reduces heat loss into loft areas.

Under Floor and Cavity Wall Ventilator

Providing proper ventilation underfloor, through walls and into wall cavities in traditional & timberframe constructions, the Glidevale MV range ensures adequate natural airflow within the fabric of buildings.
